### **Theme - The Armenian Church: An Ancient Spirituality for Today**

In today's culture, people of many backgrounds are practicing various forms of spirituality. Some Christians even draw from other religions for a spiritual experience. But for centuries, out of their unique experience, the Armenian Church has applied her own tried and true approach to Christian faith formation. This conference hopes to create a space for participants to discover Christian spirituality as the Armenian Church has experienced and understood it over time, and how spiritual disciplines such as prayer, private confession, and meditation compare and contrast with other spiritual trends in today's culture. More than just discussing spirituality, participants will have the chance to practically experience together what it means to deepen our spiritual life in one of the most ancient Christian traditions, the Armenian Church.

**Tuition/Room/Board: \$250**

**Open to all college-age and graduate students, ages 18 – 25. Space is limited.**
